

SAFE DISPOSAL IS A SOLUTION

The Prescription Playbook

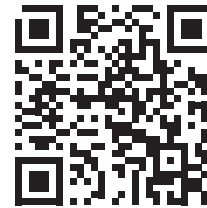

Why is safe disposal important?

Practicing safe disposal will reduce the likelihood that medications are available to be misused, diverted, or abused by others. There are several ways that you can dispose of prescriptions to protect the environment those in your household.

Ways to practice safe disposal:

Participate in a National DEA Drug Take Back Day. These days happen twice a year—once in April and once in October.

Find a year-round drug disposal drop box in your community such as, pharmacies, police departments, health departments, etc.

Scan to find your nearest disposal location

Use an at-home disposal method. Detera Pouches are one of the safest and most effective ways to practice safe disposal at home. If you're an individual or organization looking to get access to Detera Pouches, please contact us at rxplaybook@ilhpp.org.
